3. There was ample opportunity for discussion with conference speakers and participants.	0	0	0	6	6
4. The following speakers were informative:					
Steve Gilbert	0	0	0	4	8
Robert Blomeyer	0	0	0	7	5
Olga Hart	1	4	2	1	3

Comments:

- Very nicely done! Everyone was very helpful and courteous.
- OhioLink info was all “old” to me...perhaps more helpful to first time users.
- I felt that Olya’s presentation was drawn out and not very helpful since I am very familiar with her presentation material.
- I really enjoyed both Steve and Bob and the interchange between them as well.
- I especially liked the presentations of Steve Gilbert and Bob Blomeyer. I thought they were well thought out and informative!
- Technology was effective! Cameras and mics will yield sharable excerpts that will have impact beyond just institute participants. Food was excellent. The block of working breakout rooms was an excellent feature.

5. Registration procedures were well run.	0	0	0	1	11
6. The conference was held in a good location and facility.	0	0	0	0	12

Comments:

- The food and service were excellent!!!
- Wayne did a very nice job coordinating and communicating among the various sites.
- Very nice facilities, excellent food, drinks, etc.
- Excellent facility! Well organized.
- The food was fantastic. Great service from staff/hotel personnel. Early January is a bad time for this sort of thing. Overall, a very helpful and enjoyable experience. Thanks to Wayne, Chris, and all other U.C. people!
- I really enjoyed the conference. It was nice to hear problems and solutions of other organizations and nice to learn about the concerns of other educators. I also liked the diversity of the groups.
- Suggestions: Gather presentation files ahead of time and load onto the desktop so presenters don’t have to deal with it. Muffler for the LCD projector!
