

Professional Development, 3/11, noon to 3pm

Attendees: Greg Bernhardt, Kate Carey, Martha Garland, Sheryl Hansen, Bonnie Kroeger, Linda Steele, Jon Tafel

Staff: Dena Pierre

This group will develop a relationship between teaching and learning and technology. Collaborations and linkages with programs already in place in the K-12 community will be explored.

What would we need inventories of?

- Online clearinghouse for professional development opportunities
- Look at "programs" (collections of courses), rather than just various, independent courses
- Standards of learning
- Service learning
- How do we "rate" continuing education -- how does it help a teacher to help learners learn more or better?
- Methods -- how to teach effectively

What do we need as a group?

- Goals and objectives
- An answer to what is unique about us?
